

### SPECIFICATION AMENDMENTS

Kindly amend the original filed specification as follows.

Please replace the paragraph/section beginning at page 1, line 12, with the following rewritten paragraph:

Nowadays, there are hundreds of different brands of hair coloring have been sold in the drugstores such that people would like to color their hairs by themselves at home while being cost effective. Many hair coloring tools have been developed to help the users to color ~~their own hairs~~ one's own hair easily.

Please replace the paragraph/section beginning at page 8, line 9, with the following rewritten paragraph:

It is worth to mention that the user's hairs not only are untangled by the combing teeth 20 during the combing operation but also ~~3-dimensionally~~ 3-dimensionally contact with brush members 30 so that the colorant 1 can be evenly applied on the hairs 2 of the user from the roots to the ends thereof. Moreover, since only the combing teeth 30 are in contact with the scalp of the user, the colorant 1 at the brush members 30 will not contact with the scalp of the user, so as to prevent the damage of the scalp of the user due to the chemical substance of the colorant 1.
